

BILL NO. S-91-06-19

SPECIAL ORDINANCE NO. S-158-91

AN ORDINANCE approving the awarding of Reference #0256 by the City of Fort Wayne, Indiana, by and through its Department of Purchasing and KOEHLINGER KRUSE SECURITY for the Water Filtration Plant.

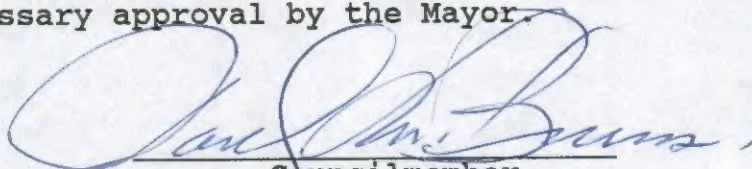

NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FORT WAYNE, INDIANA;

SECTION 1. That Reference #0256 between the City of Fort Wayne, by and through its Department of Purchasing and KOEHLINGER KRUSE SECURITY for the Water Filtration Plant, respectfully for:

the purchase of an automated security gate with monitoring camera for the Water Filtration Plant;

involving a total cost of Eighteen Thousand and no/100 Dollars (\$18,000.00), all as more particularly set forth in said Reference #0256 which is on file in the Office of the Department of Purchasing, and is by reference incorporated herein, made a part hereof, and is hereby in all things ratified, confirmed and approved.

SECTION 2. That this Ordinance shall be in full force and effect from and after its passage and any and all necessary approval by the Mayor.

Koehlinger Kruse SECURITY SYSTEMS

May 29, 1991

Ms. Jean Moore
Three Rivers Filtration Plant
City County Building
One Main Street
Fort Wayne, IN 46802

Dear Ms. Moore:

Koehlinger-Kruse Security Systems is pleased to offer for your review the following proposal to install a motor operated gate and other associated equipment at the Griswold Avenue entrance to the Filtration Plant area.

The enclosed drawing in blue shows the general locations of the associated devices being proposed on the base price. The items in yellow show the alternative price.

BASE BID

One 24 foot motorized gate assembly will be installed parallel with the fence on the west side of the drive. In addition, a new post will be installed on the east side of the entrance area to secure the motorized gate assembly when closed. A short fence area, approximately 15 feet long, will be installed on the north side of the drive connecting the old fence area to the new gate assembly.

Electricity will be trenched underground and installed in plastic conduits. In addition, other signal and control cables will be installed in a separate conduit within the same trench.

EQUIPMENT

Install one 110 VAC motor operator assembly on the west side of the Griswold Avenue entrance, including 110 VAC electrical service. In addition, a remote open/close/stop button assembly will be installed near the video monitor in the lab area of the Filtration Plant.

Install one N-1000 system processor in the electrical equipment room (N.E. corner) and connect data wires to the existing card reader system.

Supply 40 additional access control cards and program the new gate system to include the existing personnel.

Two card reader assemblies will be installed. The exit reader will be installed on the base of the TV tower approximately 80 feet south of the gate and the entrance reader will be installed next to the gate on the west side of the drive.

CLOSED CIRCUIT VIDEO

Koehlinger-Kruse Security Systems will install a closed circuit television camera, including auto-iris lens in a weather resistive housing at the top of a 20 foot free standing tower. The tower assembly will include a tilt base secured in concrete. The signal from the video camera assembly will be connected to a fiber-optic transmitter and receiver system. Approximately 2000 feet of fiber-optic cable will be installed and the video monitor will be installed next to the existing video monitor in the lab area.

INTERCOM

An intercom, located at the entrance gate, including a press to call button, will be installed and connected to the existing intercom in the lab area. This will assist the laboratory technician in determining whether he should manually operate the security gate.

Koehlinger-Kruse Security Systems will install the motor operated gate and other associated equipment as proposed, including all materials and labor, for \$17,050.00, plus sales tax if applicable.

It is Koehlinger-Kruse Security Systems' understanding the Griswold Avenue entrance and the Filtration property is private and permits to trench and install the mentioned equipment are not required except for the standard electrical permits. If other permits are required, the cost of these permits will be added to the installation fee.

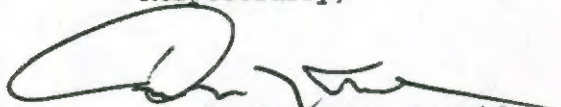

ALTERNATE BID

Koehlinger-Kruse Security Systems will install the camera tower assembly on the east side of the drive and install the entrance reader approximately 20 feet north of the entrance gate on a 2-inch diameter pipe. This price increase is based on tunneling under the drive and additional trenching and cement work.

Koehlinger-Kruse Security Systems will install the camera tower assembly as proposed above, including all materials and labor, for an additional \$940.00, plus sales tax if applicable.

I would like to thank you for giving Koehlinger-Kruse Security Systems the opportunity to submit this proposal for the Three Rivers Filtration Plant. Should you have any further questions, please call me at 422-8823.

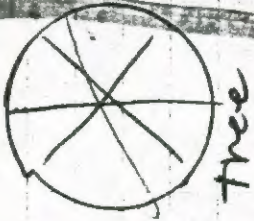

Respectfully,

Dennis N. Kruse, President
KOEHLINGER-KRUSE SECURITY SYSTEMS

DIGEST SHEET

TITLE OF ORDINANCE: Special

DEPARTMENT REQUESTING ORDINANCE: Purchasing

SYNOPSIS OF ORDINANCE: An ordinance approving the award of Reference No. 0256 for automated security gate with monitoring camera for the Filtration Plant.

IF NOT LOWEST, WHO WAS AND WHY WERE THEY NOT AWARDED:

EFFECT OF PASSAGE: Security fence automation with monitoring camera to tie into current system to increase levels of plant security. Project pursued as a result of increased problems with break-ins, vandalism, etc.

EFFECT OF NON-PASSAGE: The lack of security continues to undermine the safety of employees and our ability to protect the water supply.

MONIES INVOLVED: Koehlinger Kruse \$18000.00+/-
